PROFESSIONAL SUMMARY

Hi, I'm Noman Muneer, a Full stack Web Developer and Web Designer from Islamabad. I've helped more than 45 businesses enhance their Online presence by building responsive, high-performing websites and e-commerce stores. Specializing in Woo-commerce, Shopify, HTML, CSS, JavaScript, PHP, Bootstrap, and custom WordPress plugin development. I can build complex websites within the given time. I can also design simple pages using CSS and Bootstrap. I create tailored web solutions that turn clicks into clients. I'm always eager to learn new tools and Techniques, ensuring my clients receive cutting-edge solutions.

WORK HISTORY

• ODL Software Company Islamabad

2023 - Present

Front End Developer

Starting from the beginning of 2023, I've been immersed in the role of a Full stack developer at ODL Software Company. My focus lies in Leveraging Html, CSS, Java script, Bootstrap, Jquery, php, woo-commerce, WordPress to build robust and dynamic web applications. Excited to contribute my skills and Creativity to drive innovation within the team.

• MOTIF GURU INSTITUTE OF IT

2022 - 2022

WordPress Web Developer

I successfully completed a six-month internship at the Motif Guru Institute of IT, where I gained hands-on experience with HTML, CSS, Bootstrap, WooCommerce, and WordPress. This opportunity allowed me to deepen my expertise in web development, refine my technical skills, and work on practical projects that enhanced my proficiency in creating dynamic, user-friendly websites.

• STECHNOVA company of Wah-Cant

2021-2022

WordPress Development

Successfully completed a 6-month internship, at stechnova company gaining hands-on experience in WordPress Development. Assisted in designing and customizing WordPress themes, optimizing websites for performance and user experience. Developed responsive website layouts using HTML, CSS, ensuring compatibility across different devices.

PORTFOLIO

I have created several projects in web development. If you would like to see them, please visit my portfolio link. By visiting my portfolio, you can discover more about me.
